

5 June 2025

Dear Resident/Business owner

Helicopter activity and civil works, Sarah's Walk, Mosman – Wednesday 25 June 2025

As a result of Ausgrid's network inspection processes, we have identified four power poles that require replacement along Sarah's Walk, Mosman (off Morella Road).

The poles are located amongst bushland and are difficult to access by land. Ausgrid will therefore be using a chartered commercial helicopter to deliver and install replacement poles along Sarah's Walk on Wednesday 25 June. The works will start at 7.30am and we expect the works and pole delivery to take approximately two hours. There will be traffic control in place during the operation.

Within the next week, Ausgrid representatives will be door knocking at each home/business within the 'exclusion zone' (see map overleaf) to explain the project and request **all persons vacate their property by 7.00am on Wednesday 25 June**, until the works are complete. We will also be contacting residents/businesses by mobile and email (using the contact details provided to your energy retailer).

Requirements for persons living/working within the exclusion zone (see map overpage)

Due to the nature and risks involved in air travel and the regulations set by the Civil Aviation Safety Authority, it is a requirement that all persons be 75 metres away from the helicopter flight path/delivery area. We have identified this area on the map overleaf as the 'exclusion zone'. Therefore, **it is a requirement that all persons who are located within the exclusion zone vacate their property during the aircraft travel period**. If you have not evacuated your property by 7.00am the helicopter is unable to proceed, and this will delay the project.

Please note: There is no plan to interrupt power during this work.

Precautions and considerations for occupants and homes within the exclusion zone

- Secure external house furnishings such as outdoor furniture, green houses, kayaks and other loose items that may move in the presence of a helicopter.
- Refrain from having clothing or loose items on external lines.
- All persons and pets to vacate their property by 7.00am and be outside of the exclusion zone for the duration of the work.

Community Engagement

Apart from the delivery of this notification to your home/business address. We will contact you via home phone/mobile. If we do not reach you in person, we will call to confirm receipt of the notification and explain the project, procedure and requirements of your household/business on the day of the work.

On the day of the work, we will door knock at each property within the exclusion zone to ensure all persons and pets have vacated the property. We ask for your support and agreement that you **please vacate your property by 7.00am on Wednesday 25 June**. We expect the helicopter deliveries to be completed by 9.30am. We will open the area back up when the works are complete.

For translation support, please call the Translating and Interpreting Service on 13 14 50 and ask them to contact Ausgrid on 13 13 65.

Connecting communities,
empowering lives

The helicopter and project team will be commencing works from 7.30am, which is dependent on all persons vacating properties within the exclusion zone by 7.00am. We plan to conclude at 9.30am.

There will be traffic management in place within the exclusion zone during the morning of works.

Please see map indicating planned worksites and 'exclusion zones'

Kind regards

Project Manager – Works Delivery
